In the event that an appliance is not repairable or the repair is above the replacement value of the appliance, the Appliance Protection Plan provides money toward the purchase of a new one. There is a replacement allowance equal to **100% of the money paid in** on that appliance to a maximum of \$400 for regular appliances (except refrigerators), \$600 on refrigerators and \$1,000 for furnaces and air conditioners. This means 100% of the coverage you pay on an item goes toward the eventual replacement of that same item!\*
