What is the Home Protection Plan?

The Home Protection Plan is a home warranty service contract that covers the repairs and replacements necessary to restore the appliances and mechanical systems of your home to normal operating conditions.

How does the Home Protection Plan work?

Speak with a LIVE call representative or file a claim online, 24 hours a day, 7 days a week to be matched with a local service technician.

Are my HVAC units and water heater covered during the listing period?

You can either purchase coverage for HVAC Units & Water Heater for a small fee with no inspection required, OR you can have your HVAC Units & Water Heater inspected by a professional HVAC contractor and receive complimentary HVAC & Water Heater coverage upon completion of a satisfactory inspection. Call Home Warranty to initiate the inspection process.

remember these key points

- All covered systems and appliances must be in normal operating condition at the time coverage takes effect.
- Call **first** before having warranty work completed.

why you should buy a home protection plan

“I am so grateful for your service. I am a single mother and my water heater went out, and you and the company that did the service went above and beyond during the coldest days of the year. Kudos to you and your team.”

Sarah L., Home Warranty Client

Sellers

Offers **FREE, No-Strings-Attached**[®] coverage during the listing (up to 6 months) and allows you to decide, depending on the purchase offer, whether to make the warranty a permanent condition of the sale. If the warranty is included in the final sale, payment is due at the time of closing. If the warranty is not included in the final offer, the warranty cancels and no money, other than premiums for optional listing coverage, is owed regardless of the claims made under the warranty.*

Affords you with peace of mind and **budget protection** against untimely and expensive repairs during the listing of your home.

Offers **you protection** after the sale. The home buyer now has a place to go for repair work to mechanical systems instead of inconveniencing you after the sale.

Gives potential buyers confidence that **your property is sound** and provides them with **protection** that they will not get with the purchase of another home.

Fills the “**wear and tear**” gap that is created by the exclusion to your homeowners’ insurance coverage (subject to the provisions of the warranty).

Buyers

Provides you **peace of mind** on one of the largest investments of **your life**. No more worrying about expensive repairs on your home’s appliances and mechanical systems. One toll-free number is all you need.

Affords you with **budget protection** after buying a home. Homeowners file an average of 1.2 claims in their first year of home ownership.**

Fills the “**wear and tear**” gap that is created by the exclusion to your homeowners’ insurance coverage (subject to the provisions of the warranty).

While a thorough inspection by a professional home inspector or by yourself **will ensure** mechanical systems and appliances are in working order on the day of inspection, no one has the ability to predict when one of the covered systems will fail. Your Home Protection Plan **gives you the confidence** that your mechanical systems and appliances will be covered in the event of a breakage or failure.

Allows you the choice of service providers to complete the repair. A preferred servicer (when available) will perform the initial diagnostics.

* Where allowed by state law

COVERAGE REQUIREMENTS

1. All covered systems and appliances must be in normal operating condition at the time coverage takes effect. Conditions determined to have existed prior to the coverage period or systems and appliances that never functioned properly during the period of warranty coverage are pre-existing conditions and are not eligible for coverage under this agreement unless the terms of the UNKNOWN Pre-Existing Conditions coverage are met.

2. Agreement covers only repairs resulting from normal wear and tear associated with normal usage of covered items.

3. Purchase or registration of the plan implies consent to all agreement terms and conditions.

Seller: Coverage starts on date of sign up and continues for a period of 180 days, until the close of sale, or cancellation/expiration of listing or coverage (whichever occurs first). Home Warranty may (at its own discretion) extend the listing coverage period or allow for the purchase of additional listing coverage in the event the close of sale does not occur during the original 180-day period. Extra seller coverages are only available at the time of initial listing and may not be changed later. If fees are not received within 15 days of the start of the coverage, extra coverages will be removed from coverage and may not be added at a later time. Extra items coverages that are part of the agreement during the listing period must also be part of the final agreement. Coverage for Heating, Air, and Water Heater will be provided to the seller upon satisfactory inspection (with Home Warranty approved forms) by a professional heating and cooling contractor (or upon payment of optional fees if no inspection is conducted).

Buyer: Coverage starts on the date of closing, or 1 year after the closing date for new construction, and continues for 14 months unless multiple year coverage is purchased. Initial payment for the warranty must be received by Home Warranty not more than 15 days after closing or the start of the buyer warranty, whichever comes first. Coverage for monthly paying customers begins 30 days after payment is received.

Multi-Unit Properties: Coverage under this agreement is for a single residential property or unit only unless multi-unit coverage is purchased. Extra units require an additional fee in order to be covered. Mechanical systems or appliances serving multiple units are not eligible for coverage unless all units serviced by the mechanical system or appliance are covered under an additional fee. Item quantity limits, service cost limits, and prices on optional or extra items, are on a per unit basis. To constitute a multi-unit property under this agreement, all property's units must be part of a common structure, be part of a single sales transaction involving only one property owner/entity, and not be subject to dividing for future resale.

New Construction: Seller listing coverage cannot be used in conjunction with the new construction discount. Coverage starts 1 year from the date of close and continues for the number of years purchased.

COVERAGE

1. Agreement provides for repair (including parts and labor) or replacement on all items for which coverage has been purchased (subject to terms and limitations of this agreement), less a **\$75 service fee per incident** or actual cost of service, whichever is less, payable to the company providing service. "Per incident" is defined as a single failure occurring within a single unit or location, requiring a single repair. In the event that the repair is not covered by Home Warranty, the customer is responsible for the full cost of the service call. Failure to pay the service fee or any amount due to the servicer from the homeowner will result in suspension of warranty coverage until fee is paid, at which time coverage will then be reinstated with no extension of the original coverage period. In the event a repair performed under this agreement fails within 30 days following the initial repair, agreement provides for a recall service call without an additional service fee. Service fee is subject to change without notice.

2. Home Warranty will determine, at its sole discretion, whether a covered system or appliance will be repaired or replaced. When replacing any appliance, Home Warranty will not pay for any failures that do not contribute to the appliance's primary function including but not limited to wireless capability, television or radios built into appliances and the like. Home Warranty will replace with equipment of similar efficiency and capacity but is not responsible for matching brand, dimensions, colors or features non-essential to the core function of the item.

In some instances, Home Warranty may offer you the option of accepting cash in lieu of repair or replacement services. This offered amount is based on what Home Warranty would expect to pay (which may be less than retail cost) for parts and labor for covered items less the incurred cost of the contractor's diagnosis. Items for which parts or technical information are not available due to non-readable or missing make, model or serial numbers will be assessed a repair estimate based on a comparable repair.

3. Home Warranty has sole discretion to choose service personnel and will not reimburse for work performed without its prior approval or by service personnel contacted directly by the customer unless directed to do so by Home Warranty.

4. All requests for service not answered immediately will be acknowledged with a return phone call within 4 hours during normal working hours and 48 hours on weekends and holidays. Agreement allows for homeowner to contact service company and schedule service

during normal business hours. Agreement holder may elect to have off hours or expedited service performed at their own discretion but will be responsible for any additional fees associated with expediting service. Home Warranty reserves the right to obtain a second opinion.

5. If a property has multiple mechanical systems or appliances that require the purchase of additional coverage in order to be covered and additional coverage is not purchased, Home Warranty reserves the right to determine which mechanical systems and/or appliances are the ones primarily used and covered by this agreement. In most cases, the system that services the main living area or the largest system will be considered primary.

6. Home Warranty reserves the right to have the repair or replacement performed with aftermarket, off-brand, used, remanufactured, or reconditioned parts.

7. Notice of any malfunction must be given to Home Warranty prior to agreement expiration with the initial service call scheduled within 30 days and all approved work must be completed within 6 months of agreement expiration.

8. Unless a part or item is specifically listed under the "Covered" section, the item or part is not covered.

UNKNOWN PRE-EXISTING CONDITIONS

Available to the buyer at no extra cost upon submitting a satisfactory inspection by a qualified home inspector to Home Warranty by the closing date. In the event that the buyer is unwilling or unable to provide a copy of the inspection, the buyer may purchase UNKNOWN Pre-Existing Conditions coverage for an additional fee, not to exceed 15 days from the date of closing. Bank-owned, REO, foreclosed properties or properties where utilities have been turned off or appliances unplugged are not eligible for this coverage. Failures due to rust or corrosion are not covered for the first 30 days after contract inception. Undetectable pre-existing conditions are conditions for which defect or mechanical failure could not have been detected by a visual inspection or simple mechanical test. A visual inspection of the covered item verifies that it appears structurally intact and without damage or missing parts that would indicate inoperability. A simple mechanical test is defined as turning the item on and off, running through a complete cycle to ensure it is operational. While turned on, the item should operate without causing damage, irregular sounds or smells, smoke, water leakage or other abnormal outcomes.

VII. Agreement

Purchase or registration of this plan implies consent to all agreement terms and conditions.

This plan does not cover any known pre-existing conditions (unless UNKNOWN Conditions option is purchased or otherwise qualified for) and requires all appliances and mechanical systems to be in normal working condition when this plan takes effect. Home Warranty does not require, but strongly encourages, inspections of covered items (especially heating and cooling systems) by professional contractors in order to help reduce or eliminate the risk that an item will be precluded from coverage due to a pre-existing condition.

A \$75 service fee per incident is due at the time of service.
