COVERAGE REQUIREMENTS

1. All covered systems and appliances must be in normal operating condition at the time coverage takes effect. Conditions determined to have existed prior to the coverage period or systems and appliances that never functioned properly during the period of warranty coverage are pre-existing conditions and are not eligible for coverage under this agreement unless the terms of the Unknown Pre-Existing Conditions coverage are met.

2. Agreement covers only repairs resulting from normal wear and tear associated with normal usage of covered items.

3. Purchase or registration of the plan implies consent to all agreement terms and conditions.

Seller: Coverage starts on date of sign up and continues for a period of 180 days, until the close of sale, or cancellation/expiration of listing or coverage (whichever occurs first). Home Warranty may (at its own discretion) extend the listing coverage period or allow for the purchase of additional listing coverage in the event the close of sale does not occur during the original 180-day period. Extra seller coverages are only available at the time of initial listing and may not be changed later. If fees are not received within 15 days of the start of coverage, extra coverages will be removed from coverage and may not be added at a later time. Extra items coverages that are part of the agreement during the listing period must also be part of the final agreement. Coverage for Heating, Cooling, and Ventilation (HVAC) Systems will be provided to the seller upon satisfactory inspection (with Home Warranty approved forms) by a professional heating and cooling contractor (or upon payment of optional fees if no inspection is conducted).

Buyer: Coverage starts on the date of closing, or one year after the closing date for new construction, and continues for one year unless multiple year coverage is purchased. Initial payment for the warranty must be received by Home Warranty not more than 15 days after closing or the start of the buyer warranty, whichever comes first. Coverage for monthly paying customers begins 30 days after payment is received.

Multi-Unit Properties: Coverage under this agreement is for a single residential property or unit only unless multi-unit coverage is purchased. Extra units require an additional fee in order to be covered. Mechanical systems or appliances serving multiple units are not eligible for coverage unless all units serviced by the mechanical system or appliance are covered under an additional fee. Item quantity limits, service cost limits, and prices on optional or extra items, are on a per unit basis. To constitute a multi-unit property under this agreement, all property's units must be part of a common structure, be part of a single sales transaction involving only one property owner/entity, and not be subject to dividing for future resale.

New Construction: Seller listing coverage cannot be used in conjunction with the new construction discount. Coverage starts one year from the date of close and continues for the number of years purchased.

COVERAGE

1. Agreement provides for repair (including parts and labor) or replacement on all items for which coverage has been purchased (subject to terms and limitations of this agreement), less a **\$75 service fee per incident** or actual cost of service, whichever is less, payable to the company providing service. "Per incident" is defined as a single failure occurring within a single unit or location, requiring a single repair. Failures determined to have occurred outside these parameters will be assessed additional trade service fees. Failure to pay the service fee or any amount due to the servicer from the homeowner will result in suspension of warranty coverage until fee is paid, at which time coverage will then be reinstated with no extension of the original coverage period. In the event a repair performed under this agreement fails within 30 days following the initial repair, agreement provides for a recall service call without an additional service fee. Service fee is subject to change without notice.

2. Items for which parts or technical information are not available (other than non-readable or missing make, model or serial numbers) or items for which the repair exceeds replacement cost of the item will be deemed non-repairable. A customer whose mechanical system or appliance has been deemed non-repairable will be given the equivalent dollar value of a new comparable replacement item as determined by Home Warranty (an equivalent replacement item does not indicate an exact match of specific brands, colors, finishes, dimensions, features, efficiencies). If a comparable item is no longer available, agreement allows for upgrade of a system or appliance to the minimum available unit (this includes upgrade of air conditioner to federal standards). Upgrade of HVAC systems includes necessary modifications to existing systems in order to provide for physical installation and minimum functionality but does not allow for upgrades to achieve greater efficiency, bring supporting systems (including but not limited to plumbing, electrical, ductwork) up to code or capacity, or changes to physical structures (including but not limited to concrete pads) required to accommodate the new unit. Items for which parts or technical information are not available due to non-readable or missing make, model and serial numbers will be assessed a repair estimate based on a comparable part.

3. Home Warranty may (at its own discretion) allow homeowner to forgo repair and apply an amount up to what the repair would have cost to the replacement of an item instead, but allowance will never exceed Home Warranty's estimate of remaining cost of repair, regardless of age or condition of the item.

4. Home Warranty has sole discretion to choose service personnel and will not reimburse for work performed without its prior approval or by service personnel contacted directly by the customer unless directed to do so by Home Warranty.

5. All requests for service not answered immediately will be acknowledged with a return phone call within 4 hours during normal working hours and 48 hours on weekends and holidays. Agreement allows for homeowner to contact service company and schedule service during normal business hours. Agreement holder may elect to have off hours or expedited service performed at their own discretion but will be responsible for any additional fees associated with expediting service. Home Warranty reserves the right to obtain a second opinion at Home Warranty's expense.

6. Home Warranty reserves the sole right to determine whether a covered system or appliance will be repaired or replaced and reserves the sole right to limit the amount paid on any individual repair or replacement.

7. If a property has multiple mechanical systems or appliances that require the purchase of additional coverage in order to be covered and additional coverage is not purchased, Home Warranty reserves the right to determine which mechanical systems and/or appliances are the ones primarily used and covered by this agreement.

8. Home Warranty reserves the right to have the repair or replacement performed with aftermarket, off-brand, used, remanufactured, or reconditioned parts.

9. Notice of any malfunction must be given to Home Warranty prior to agreement expiration and approved work must be completed within six months of agreement expiration.

10. Unless a part or item is specifically listed under the "Covered" section, the item or part is not covered.

UNKNOWN PRE-EXISTING CONDITIONS

Available to the buyer at no extra cost upon submitting a satisfactory inspection by a qualified home inspector to Home Warranty. In the event that the buyer is unwilling or unable to provide a copy of the inspection, the buyer may purchase Unknown Pre-Existing Conditions coverage for an additional fee, not to exceed 30 days from the date of closing. Bank-owned, REO, foreclosed properties or properties where utilities have been turned off or appliances unplugged are not eligible for this coverage. Failures due to rust or corrosion are not covered for the first 30 days after contract inception. Undetectable pre-existing conditions are conditions for which defect or mechanical failure could not have been detected by a visual inspection or simple mechanical test. A visual inspection of the covered item verifies that it appears structurally intact and without damage or missing parts that would indicate inoperability. A simple mechanical test is defined as turning the item on and off to ensure that it is operational. While turned on, the item should operate without causing damage, irregular sounds or smells, smoke, water leakage or other abnormal outcomes.
